News for Friday, August 11, 2006

DOC is pleased to announce that PPOII Wayne Fritz, currently the Resource Developer and Volunteer/Intern Coordinator for the Eastern Region, has been promoted to the position of Unit Supervisor at District 7-Central. Wayne has been with the agency for 8 years. He came to the agency as a certified substance abuse counselor and, therefore, was assigned supervision of the Opportunity to Succeed (dual-diagnosis) caseload. Since transferring to his current position, Wayne has taken a lead role in the region's National Crime Victims' Rights Week activities and has worked with local colleges and universities to enhance our volunteer/internship program. This, in addition to the supervisory experience he gained in his previous employment, should serve him well in meeting the challenges of the unit supervisor position. Please join us in congratulating Mr. Fritz on his promotion!
